Title: Market consultation wellhead and x-mas tree

Description: For the 4 new caverns for hydrogen storage as described in the document "Market consultation wellhead and x-mas tree" Gasunie foresees the need for wellheads and x-mas trees. There is also a possibility that Gasunie will need wellheads and x-mas trees suitable for other media such as nitrogen, CO₂ and natural gas. To get a clear insight into the possibilities in the market, it was decided to carry out a market consultation wellhead and x-mas tree. Gasunie invites suppliers to respond and greatly appreciates their contribution. Gasunie hopes to gain more clarity on the following points: • Are Gasunie's requirements relevant, realistic and achievable. In other words, can the market deliver wellheads and x-mas trees according to the scope Gasunie can currently provide. • Gather information from the market about wellheads and x-mas trees suitable for hydrogen, natural gas, CO₂ and nitrogen applications as described in paragraph "1.5 Scope of the contract" in the document "Market consultation wellhead and x-mas tree"; • What solutions the market offers in relation to the questions and requirements of Gasunie; • Obtaining a cost indication to be able to set the target value of a tender as accurately as possible; • What does the market look like and what differentiates parties; • The expected trends and developments in the market of wellheads and x-mas trees. Gasunie wants to use the information obtained from the market to prepare a European tender for wellheads and x-mas trees.
