Primary Years Programme

IB-PYP is a curriculum framework designed for students aged 3-12 years. It focuses on the development of the whole child as an inquirer, both in the classroom and in the world outside. It is defined by six transdisciplinary themes of global significance. These are explored using knowledge and skills derived from six subject areas, with a powerful emphasis on inquiry-based learning.

Middle Years Programme

IB-MYP is a conceptual curriculum framework for students between the ages of 11-16 years. The MYP aims to develop active learners and internationally-minded young people who can empathise with others and pursue lives of purpose and meaning. The programme empowers students to inquire into a wide range of issues and ideas of significance locally, nationally and globally. The result is young people who are creative, critical and reflective thinkers.

Diploma Programme

The IB Diploma Programme is a curriculum framework for students between the ages of 16-19 years. The IBDP aims to develop students who have excellent breadth and depth of knowledge – students who flourish physically, intellectually, emotionally and ethically. The DP was established to provide students with a balanced education, to facilitate geographic and cultural mobility and to promote international understanding.

**International
School
Utrecht**

We are a learning community.

2012

**First day of school,
Notenbomenlaan**

Move to

Papendorp

2023

**We welcome our
1000th student**

2026

**Move to
Utrecht Science Park**

'The upcoming relocation and the expansion of ISU enables us to successfully continue our mission to strengthen the region by attracting foreign companies.'

Jaap Breugem, ROM Utrecht Region

'Attracting and retaining international talent, start-ups, and businesses is key for creating an international hub for innovation in the field of healthy living. Our mission can only succeed, if Utrecht can provide international families with fitting education for their children.'

Michiel Dijkman, EBU

'I was born in Australia but moved to Poland when I was 7 years old. Two years ago, we moved to Utrecht. I was very nervous when I started at ISU, but everyone was friendly, and it helped that the programme was exactly the same as in my international school in Poland.'

Pranav (12), student ISU

'With students and staff representing over 60 nationalities, we form a strong and inclusive learning community. For International families with school aged children looking to move to the Netherlands, finding a school, is the very first thing on their to-do-list. The choice for ISU is easily made.'

Marieke Folkers, Head of School

Bijzondere omgeving

Bijzonder gebouw

Ruimtelijke uitgangspunten

Ruimtelijk concept

1 - Van een eenvoudig rechthoekig volume knippen we zijden af voor een alzijdige uitstraling

2 - Hierna maken we twee grote gebaren: Een spraakmakende entree aan de campus en een groen daklandschap naar Amelisweerd

3 - Deze twee gebaren komen samen in het hart van het gebouw, waar muziek, dans en kunst een belangrijke rol spelen

4 - Zo creëren we een school waar campus en landschap samenkomen, op een plek waar ontwikkeling van het kind centraal staat
