Activity of the contracting entity: Production, transport or distribution of gas or heat

2. Procedure

2.1 Procedure

Title: Technical services management and maintenance

Description: The gas transport system of Gasunie includes not only over 12,000 kilometers of pipelines but also thousands of (gas) installations. Gasunie performs various maintenance and projects to optimize this gas transport system in terms of lifespan, safety and efficiency. Support is needed in the form of (lab) research, measurement and test setups, pressure tests, sample analysis of liquids, oils and greases and solids, performance tests on valves and regulators. These involve issues that arise during the maintenance process and need further investigation. The service can be provided ad-hoc (for example, during emergencies) or planned for process optimization or maintenance improvements. 6.800.000
