2.1 Procedure

Title:	Request for Information Next Generation Automated Border Control Process
Description:	Dear partner, The attached document concerns a Request for Information (RfI) from the Netherlands Ministry of Defence (NLD MoD). This RfI is part of a market survey aimed at gathering insights into new developments in border management technology and available electronic solutions for traveler border control. The RNM is investigating solutions that can ensure a future-proof solution to border control processes that can: - accomodate upcoming regulatory changes; - help manage passenger flows; - adapt to future technological advancements, such as biometric technology. The aim is to validate and refine the strategic vision for border control processes and technology by leveraging market insights. It is not the intention to ask for a detailed proposal at this point. Sufficient information about your solution should be furnished, so that the NID MoD gets a better understanding of both the possibilities and challenges, as well as anticipated future developments. Yours sincerely, K. Nijboer
