

Market consultation

International mitigation expert to support the Moroccan NDC, the Low Carbon National Strategy (SNBC) implementation, and the Transparency Framework **with reference 202410211**

Organisation: The Netherlands Enterprise Agency

The Netherlands Enterprise Agency (in Dutch: Rijksdienst voor Ondernemend Nederland, RVO) supports private and public organisations with funding, international business partners, knowledge, and regulations. More information about RVO can be found on: www.rvo.nl and <http://english.rvo.nl/>.

This assignment is commissioned by the *Climate and Energy Response Facility* ([CERF](#)), a programme within The Netherlands Enterprise Agency (RVO), commissioned by the Ministry of Foreign Affairs of the Netherlands. RVO is a government agency which is part of the Dutch Ministry of Economic Affairs.

Purpose of the notification

The purpose of the market consultation is to gauge interest and obtain insights from qualified contractors regarding the provision of international mitigation expertise to support Morocco's NDC, SNBC implementation, and the Enhanced Transparency Framework (ETF).

Extent and duration

The project will run for a duration of one year, beginning in February 2025, with the final deliverables expected by December 2025. The expert will be primarily working remotely, with three planned in-country missions to Morocco (one every four months).

Budget indication

max €130,000 (excluding Netherlands VAT and if applicable foreign VAT and others costs)

Purpose of the project

The purpose of this project is to provide technical assistance and capacity-building support to the Ministry of Energy Transition and Sustainable Development (MTEDD) in Morocco. The expert will focus on enhancing the prioritization and implementation of Morocco's climate mitigation activities and improving national reporting systems in alignment with international transparency frameworks. This project supports Morocco's objectives under the Paris Agreement and the 2024 Memorandum of Understanding between the Netherlands and Morocco, which aims to support collaboration on renewable energy, green hydrogen, and decarbonization.

Goals and deliverables

The goal of the assignment is to advance Morocco's climate objectives by supporting the MTEDD with expertise in NDC planning, SNBC implementation, and ETF compliance. The following results need to be achieved during the assignment:

- Prioritized list of NDC projects, aligned with Morocco's development and sector-specific goals
- Support for the development of Morocco's Biennial Transparency Report (BTR), with relevant indicators and quality assurance
- Analysis of available technologies for decarbonization and recommendations for implementation across key sectors
- Development of an energy-focused priority projects portfolio for donor and funder engagement

Application

Interested companies are invited to send an expression of interest to The Netherlands Enterprise Agency by sending an e-mail to gert.goorhuis@rvo.nl of the Procurement Office and a copy to and Tomas.olejniczak@rvo.nl

Please state the name of the contact person of your company and his or her e-mail address.

You do not have to send any documents; please only send a short message that you are interested.

As a result of the market consultation, RVO can decide to start a follow-up process. Interested parties can be invited in this process to submit a request for proposal. If more than 5 applicants respond to the market consultation, a supplier selection can take place on the basis of a selection prior to the request for quotation.

Deadline

The deadline for responding to this market consultation is set at 10 December 2024.
