

Algemene informatie

Aanbesteding: Thermoplastic composite sheet consolidation equipment
Aanbestedende Dienst: Cato Composites B.V.
Referentie: -

Toelichting:

Vraag en antwoord

Ref.nr. 2
Onderwerp: Filling in the Annex C - ESPD document

Vraag:

The document “Annex C - European Single Procurement Document (ESPD). xml” seems to be corrupt. Cannot be opened. I assume we shall use the xml-file to fill in the questions, right, and then save as pdf? The pdf you provided is not editable.

Antwoord:

That is correct, in accordance with the instruction in the Selection Guide. The TenderNed platform should provide an option to fill in the ESPD form digitally. You can find instructions in the following video, around the 1:30 mark:

<https://www.tenderned.nl/cms/en/english/submitting-tender-open-procedure>

Once completed, you should be able to export the filled-in ESPD document as PDF and then sign it, in accordance with the instruction in the Selection Guide.

If this option does not work, an alternative method is available. You can download the XML file of the ESPD and upload it to the following tool:

<https://espd.eop.bg/espd-web/filter?lang=en>

Select the option ‘I am an economic operator’, and import the ESPD XML file associated with this tender. From there, you can fill in the ESPD document digitally. Once completed, you can export it as a PDF and sign it, in accordance with the instruction in the Selection Guide.

Disclaimer: Since this information is publicly available in the Selection Guide and the user manual on the TenderNed platform, the contracting authority does not consider this as providing additional information that would require an extension of the statutory ten-day period until the

application deadline.
