2. Procedure

2.1 Procedure

Title:	Voluntary ex ante transparency notice tiltable LSM 900 microscope
Description:	Shared Research Facilities (SRF) and the Wageningen Light Microscopy Centre (WLMC) of the Plant Sciences Group of the Wageningen University (WU) intends to purchase a “Tiltable LSM 900 microscope”. Currently, no other microscope is available on the market that meets our demands for a high-end confocal microscope that can be repositioned from a horizontal to vertical stage orientation at the push of a button without the need for re alignment or calibrations. This setup aims to provide a flexible and user-friendly system for a large group of users with limited microscopy experience and varying demands. The microscope will be housed within WLMC. WLMC is a multi-user light microscopy facility, embedded within the NL-Bioimaging platform. Therefore, the system will be available for a broad range of researchers from WUR and other national and international universities/research institutes. The new set-up will also be accessible for external partners (e.g. industry).
