Column C states the question.

Column D states the answer.

Question number	Document	Question	Answer
1	Annex 01, requirement numbers 2, 11	Is it acceptable for our response to be based on investments that improve performance of existing lightning detection systems in order to meet listed requirements or do all capabilities need to be present for the last three years and currently?	It is acceptable for your response to be based on investments in order to meet listed requirements. Please make clear in your description which investments are needed and how the investments will aid in meeting our requirements, where possible supported by scientific research. Please also state your current capabilities in the proposal.
