

Appendix 6 – Definitions

Word/Abbreviation	Definition
<i>Aanbestedingswet 2012</i>	Dutch Public Procurement Act 2012 (wetten.nl - Regeling - Aanbestedingswet 2012 - BWBR0032203 (overheid.nl))
<i>Algemene Rijksinkoopvoorwaarden (ARIV)</i>	General Government Purchasing Conditions 2018 (ARIV 2018 (Engelse versie) Publicatie Rijksoverheid.nl)
<i>Algemene Verordening Persoonsgegevens (AVG)</i>	General Data Protection Regulation (Regulation (EU) 2016/679, GDPR) (General Data Protection Regulation (GDPR) – Legal Text (gdpr-info.eu))
<i>API</i>	Application programming interface
<i>CET</i>	Central European Time. Central European Time is one hour ahead of the Coordinated Universal Time (UTC). This means CET is UTC+1.
<i>Client</i>	The party issuing the tender (Stichting Z-CERT).
<i>CVSS</i>	Common Vulnerability Scoring System
<i>Contractor</i>	The party submitting the Proposal for the tender.
<i>Contracting Authority</i>	The party issuing the tender (Stichting Z-CERT).
<i>CSV</i>	Comma-separated values
<i>DANE</i>	DNS-based Authentication of Named Entities
<i>Data Processing Agreement (DPA)</i>	Pursuant article 28 of the GDPR data controllers need to sign a Data Processing Agreement.
<i>DDoS</i>	Distributed Denial of Service
<i>DKIM</i>	DomainKeys Identified Mail is an email authentication method which uses a digital signature. This digital signature lets the receiver of the email know that the message was sent and authorized by the owner of the domain.
<i>DMARC</i>	Domain-based Message Authentication, Reporting and Conformance. DMARC is a type of email authentication protocol that helps to verify the origin of an email.

<i>EEA</i>	European Economic Area consists of all the countries that are currently part of the European Union and Iceland, Liechtenstein and Norway.
<i>Entra ID</i>	Microsoft Entra ID is a cloud-based identity and access management which is used to access external resources.
<i>Hacktivist</i>	The use of computer-based techniques such as hacking to promote a political agenda.
<i>ISO 27001</i>	ISO/IEC 27001 is the international standard for information security management. The ISO 27001 sets out a framework for all organisations to establish an ISMS (Information Security Management System).
<i>JSON</i>	JavaScript Object Notation
<i>Lot</i>	The tender is split into two (2) Lots: Lot 1 CTI Feed and Lot 2 CTI Monitoring Dashboard. Each Lot requires a separate Proposal.
<i>MFA</i>	Multi-factor authentication
<i>MISP</i>	Malware Information Sharing Platform
<i>NVP</i>	Nederlandse Vereniging voor Personeelsmanagement & Organisatieontwikkeling / Dutch Association for Personnel Management and Organization.
<i>Proposal</i>	Consists of all the required documents that need to be filled in by Tenderer: Appendix 1, Appendix 2, Appendix 3 and either Appendix 4 (Lot 1) or Appendix 5 (Lot 2).
<i>RaaS</i>	Ransomware-as-a-Service is a cybercrime business model in which developers sell ransomware code to third parties. These third parties can use the ransomware for their own purposes.
<i>REST</i>	Representational State Transfer
<i>SaaS</i>	Software-as-a-Service is a software distribution model. The software application is made available for end users (in this case the Client).
<i>SPF</i>	Sender Policy Framework is used to reduce spam.
<i>SSO</i>	Single sign-on

<i>SSL</i>	Secure Sockets Layer
<i>Stichting</i>	Dutch legal entity (foundation). (The stichting KVK)
<i>STARTTLS</i>	An email protocol command.
<i>STIX/TAXII</i>	Structured Threat Information eXpression
<i>TAXII</i>	Trusted Automated eXchange of Intelligence Information
<i>Tenderer</i>	The party submitting the Proposal for the tender.
<i>TLS 1.2</i>	Transport Layer Security 1.2
<i>XML</i>	eXtensible Markup Language
24/7	24 hours, 7 days a week. 24/7 in this tender means it is available/accessible at all times.
