

# Memorandum of Information

Applicable to the European public Procurement Procedure for the design, delivery and deployment of 4 borehole monitoring strings, Reference number WS2429850681

No.	Section nr. / subject	Question	Answers
1.	Para. 2.3	Would it be possible to extend the Inschrijfronde 1 for one more week. Or at least to confirm that technical question can be raised even after the deal line on 31st of March?	TNO will not extend the procedure. Questions can be asked until no later than the closing date of the 'Deadline for asking questions'. The responsibility for submitting questions and/or comments in a timely and correct manner rests with the Tenderer. Questions raised after the expiry of the deadline will in principle not be answered in the Information Notice unless answering is necessary, in TNO's opinion, for the submission of a proper Tender. This means also that, depending on the number of questions received after the deadline for asking questions, and the time it takes to answer then, a decision will be made whether or not to answer these questions.
2.	Para. 2.1	TNO's addition to the answer to question 1, concerning the Schedule for the Procurement Procedure:	Contrary to first sentence of the answer to question 1, TNO has decided to extend the term for submitting questions, so that the proposed schedule with dates has been adjusted as follows: - Adjusted closing date for submission of questions by Tenderers: 7 April 2025 - Adjusted issue of (final) information notice / Memorandum of Information (by TNO): 22 April 2025 - The other mentioned dates in the schedule for the Procurement Procedure remain unchanged.
