

Memorandum of Information

Applicable to the European public Procurement Procedure for the design, delivery and deployment of 4 borehole monitoring strings, Reference number WS2429850681

No.	Section nr. / subject	Question	Answers
1.	Para. 2.3	Would it be possible to extend the Inschrijfronde 1 for one more week. Or at least to confirm that technical question can be raised even after the deal line on 31st of March?	TNO will not extend the procedure. Questions can be asked until no later than the closing date of the 'Deadline for asking questions'. The responsibility for submitting questions and/or comments in a timely and correct manner rests with the Tenderer. Questions raised after the expiry of the deadline will in principle not be answered in the Information Notice unless answering is necessary, in TNO's opinion, for the submission of a proper Tender. This means also that, depending on the number of questions received after the deadline for asking questions, and the time it takes to answer then, a decision will be made whether or not to answer these questions.
