Legal type of the competent authority:	Body governed by public law
Activity of the contracting authority:	Public order and safety

2. Procedure

2.1 Procedure

Title:	Market Consultation for a Mobile Mode S Surveillance Radar
Description:	Air Traffic Control the Netherlands (ATC-NL) seeks your valued advice to prepare a sourcing strategy for a Mode-S Mobile Radar. Multiple radars in the Netherlands will be replaced over the coming years. The purpose of deploying a mobile radar is to maintain the continuity of the operation. It is important to keep sufficient Mode-S coverage during the replacement of a radar. Furthermore, the mobile Mode S radar could potentially be used when a radar fails. This way, there are no capacity limitations in the event of failure of another radar. On this TenderNed platform, a Questionnaire can be directly downloaded. This Questionnaire contains all relevant details such as a business specification and an elaborate list of questions for which LVNL seeks your valued advice. Please use this Questionnaire to write down your answers and submit this document to the contact person for this marktet consultation. ATC-NL would be obliged to answer any subsequent question regarding this market consultation. Please address these question either through the TenderNed Q&A module or directly to the listed contact person. Please refer to the business specification in the Market Consultation Questionnaire.
