

# **ANNOUNCEMENT / MEDEDELING**

## **TENDERED**

Included in the market consultation shipping capacity Dutch Caribbean (ref. 31093307) is an option for an oral round with plenary meetings and/or individual talks. The oral round will only be used if the written round yields insufficient information, or if it yields information for which Rijkswaterstaat would like further detail. After processing the written round, Rijkswaterstaat has decided to hold an oral round with individual interviews. Parties that handed in a questionnaire during the written round will be invited for a meeting in week 42. The meetings will be held in the European Netherlands where possible. On conclusion of the oral round, the report of the market consultation will be drawn up and made public. This will conclude the market consultation.
