

Market orientation "English editor for Dutch offshore wind"
ref. 202601024

Organisation: The Netherlands Enterprise Agency

The Netherlands Enterprise Agency (in Dutch: Rijksdienst voor Ondernemend Nederland, RVO) supports private and public organizations with funding, international business partners, knowledge, and regulations.

More information about RVO can be found on: www.rvo.nl and <http://english.rvo.nl/>.

Background information

The Netherlands Enterprise Agency's offshore wind team aims at supporting any party that has an interest in the planned tenders for the Wind Farm Zones in the Dutch North Sea. To that effect RVO communicates with interested parties and stakeholders by way of, for instance, brochures, workshops, webinars, consultation, articles, websites and the Project and Site Descriptions (PSD). For every offshore wind tender a set of communication products is produced. Two of the most important products are the Project and Site Description (PSD) and the tender web pages with all relevant information about the tender.

Short description of the assignment RVO is looking for a party who can check all English translations for communication products and legal documents, advise the Netherlands Enterprise Agency on the English versions or translations of legal and/or policy documents, site studies and press releases. Also part of the assignment is writing new texts such as articles. This party should be specialized in communication and (trade) press relations in the field of offshore wind energy. The persons executing the work (the editor(s)) have to be fluent in British English.

Purpose of the notification

The purpose of this market consultation is to identify parties that are willing and able to provide English-language editing services and write new articles for the offshore wind team of the Netherlands Enterprise Agency.

Extent and duration

The assignment will run from April 2026 till April 2030.

Budget indication

Max € 100.000 excluding Netherlands VAT.

Goals and deliverables

The Offshore Wind Energy Roadmap provides the tender planning for the coming years. From 2026 to 2030 the following wind farm tenders are expected to be issued: [New offshore wind farms | RVO.nl](https://www.rvo.nl/en/offshore-wind-energy-roadmap).

For each offshore wind tender, the Netherlands Enterprise Agency produces a set of communication products. One of these is the Project and Site Description (PSD). The PSD serves as a 'bid book' and also focuses on the economic perspectives of the Dutch coastal regions and the Dutch offshore wind supply chain. Follow this link to the latest PSD: [Project and Site Description Nederwiek Wind Farm Zone Site I-A \(NW I-A\)](https://www.rvo.nl/en/offshore-wind-energy-roadmap)

The party to be contracted will be responsible for drafting and editing the PSD.

Furthermore, the party shall provide support for all English-language communication activities relating to the Dutch Offshore Wind Farm Zones, Dutch offshore wind energy policy, and the applicable legal framework. This includes writing and editing content for the websites www.english.rvo.nl and <https://offshorewind.rvo.nl>, PowerPoint presentations, translations of legal/policy texts such as Wind Farm Site Decisions, letters to parliament and Ministerial Orders, press releases, articles, and other related communication materials.
