

This architectural section drawing illustrates the interior of the National Assembly building. The central hall features a high, vaulted ceiling with a prominent truss system and a central skylight. The side wings have a lower, flat ceiling with a grid of structural elements. The drawing shows the floor, walls, and various structural components, including columns and beams. Staircases are visible on both sides of the central hall. The drawing is marked with vertical grid lines labeled 2, 3, 4, 5, and 6 at the bottom.
