1. Buyer

1.1 Buyer

Official name :	Ministerie van Economische Zaken, Rijksdienst voor Ondernemend Nederland (RVO)
Legal type of the buyer:	Central government authority
Activity of the contracting authority:	Economic affairs

2. Procedure

2.1 Procedure

Title:	Atmospheric Stability Profile campaign
Description:	RVO (Netherlands Enterprise Agency) intends to issue an invitation to tender for the acquisition and analysis of Atmospheric Stability Profile data at two offshore locations in the North Sea. The aim of this study is to get insight in the stability of the Atmospheric Boundary Layer (ABL) by means of vertical measurements of temperature and humidity. ABL behaviour has been identified as a critical parameter in determining wake characteristics of turbines and wind farms, which influences the Annual Energy Yield and in turn the business case of wind farms. The Assignment consists of two measurements at each location, for two locations in total. At each location, a buoy mounted measurement system will be placed close to a platform mounted system for validation purposes. The locations are chosen in consultation with RVO, and TNO will help facilitate access to the respective platforms. The Assignment covers the design, construction and deployment of vertical temperature and humidity profile -
Internal identifier:	202308032

2.1.1 Purpose

Main nature of the contract:	Services
Main classification (cpv):	71300000 Engineering services
Additional classification (cpv):	38126000 Surface observing apparatus

2.1.2 Place of performance

Country: Netherlands

Anywhere in the given country

2.1.4 General information

Legal basis:

Directive 2014/24/EU

3. Part

3.1 Part technical ID: PAR-0000

mounted system for validation purposes. The locations are chosen in consultation with RVO, and TNO will help facilitate access to the respective platforms. The Assignment covers the design, construction and deployment of vertical temperature and humidity profile measurement devices. This Tender will consist of two phases: during the first phase, the two best scoring tenderers are selected to enter the second phase. In the second phase, the project plan will be worked out in more detail by both Tenderers, for which they will be reimbursed by RVO. The best Tender is then selected based on the best score on price and quality. -
