- Policy Configuratie, compliance en conditional access:

Policies Notifications Retire noncompliant devices Compliance settings Scripts Monitor The Microsoft Defender for Endpoint connector is active for Windows but not included in an assigned compliance policy. To protect these platforms, set up a compliance policy with the Machine Risk Score setting configured in the Microsoft Defender for Endpoint section. December 31st, 2024 marks the end of Microsoft Intune support for Android device administrator management on devices with access to Google Mobile Services (GMS). Use alternate Intune Android management options instead. Learn more about ending support for Android device administrators.
