As in above-mentioned contact point(s)

I.2 TYPE OF THE CONTRACTING AUTHORITY AND MAIN ACTIVITY OR ACTIVITIES

Body governed by public law

Other: National research and education network

The contracting authority is purchasing on behalf of other contracting authorities: no

SECTION II: OBJECT OF THE CONTRACT

II.1 DESCRIPTION

II.1.1 Title attributed to the contract by the contracting authority

WiFi-as-a-Service Innovation Partner

II.1.2 Type of contract and location of works, place of delivery or of performance

Type: (c) Services

Category: Telecommunications services

Main place of performance: Utrecht

NUTS code: NL

II.1.3 The notice involves

The establishment of a framework agreement

II.1.4 Information on framework agreement

Framework agreement with a single operator

or month(s): 72

Justification for a framework agreement, the duration of which exceeds four years: The procedure is aimed at the conclusion of a framework contract which initially runs for 4 years, with the possibility of extending the contract two times for a period of one year. Normally, the maximum term of a framework contract within a European tender is 4 years, unless the need for contract extension -based on mainly economic reasons- is justified.

For this case, the Innovation Partner is expected to invest in specific sources for the purpose of the WaaS service.

Giving the fact that the WaaS Service needs to start and based on the expectation that participation from institutions will be limited during the first years, the maximum term of 6 years is expected to be needed. Namely, with the maximal extension of 2 years, the Innovation Partner is expected to have sufficient time to capture return on his investments.

Frequency and value of the contracts to be awarded: -

II.1.5 Short description of the contract or purchase(s)

SURFnet is seeking an Innovation Partner who will work closely with SURFnet on the design, development, building, delivery and maintenance of a Wi-Fi-as-a-Service environment for our connected Institutions, as an extension of the current National Research Infrastructure in the Netherlands.

SURFnet believes that high network capacity, along with secure and transparent access to the SURFnet network and the internet, enables innovation and contributes to the quality of education and research in the Netherlands. From this perspective, SURFnet wants to provide its customers with a high quality, sustainable managed Wi-Fi service.

In WaaS, the Innovation Partner and SURFnet work together on the following activities, which among others will be topics for discussion:

- Design of the network architecture of WaaS;
- Development, building and delivery of WaaS;
- Further development of the WaaS business model;
- Configuration and operational management;
- Support organisation setup and operation;
- Radio planning and verification;
- Acquisition of needed hardware, software and licences;
- Stimulation of innovative co-development of new features for the WaaS.

II.1.6 Common procurement vocabulary (CPV)

Main object

Main vocabulary: 64227000-3 (Geïntegreerde telecommunicatiediensten)

Supplementary vocabulary: FA03-2 (Voor gebruik op school)

Supplementary vocabulary:IA01-9 (Ontwerp en constructie)
