Legal type of the buyer: Body governed by public law

Legal type of the competent authority: Body governed by public law

Activity of the contracting authority: Public order and safety

2. Procedure

2.1 Procedure

Title: Aeronautical Information Management and Flight Procedure Design solutions

Description: The purpose of this Request for Information (RFI) is to obtain structured insight into the current market for Aeronautical Information Management (AIM) and Flight Procedure Design (FPD) solutions, in order to support ATC-NL in determining how its future AIM and FPD capabilities can best be realised. ATC-NL is seeking market input on available solutions, technologies and delivery models and on how these can support a compliant, secure, resilient and future-proof environment. Through this RFI, ATC-NL aims to gain a comprehensive understanding of available solutions, suppliers, implementation approaches and relevant market developments. In addition, this RFI is intended to facilitate dialogue between ATC-NL and market parties and to obtain insight into technological developments, recognised practices and innovative approaches relevant to the future provision of AIM and FPD capabilities. The scope and estimated value of any potential future contract have not yet been determined. The purpose of this market consultation is to gain insight into available solutions, market capabilities and associated commercial models. The information obtained may be used to further define the nature and scope of any potential future procurement.

2.1.1 Purpose

Main nature of the contract: Supplies

Main classification (cpv): 48000000 Software package and information systems

Additional classification (cpv): 48100000 Industry specific software package

Additional classification (cpv): 72260000 Software-related services

2.1.2 Place of performance

Country: Netherlands

Anywhere in the given country

2.1.4 General information

Legal basis:

Other

5. Lot

5.1 Lot technical ID: LOT-0000
