Subject Bird radar system (RFI)

bhw.heetkamp@mindef.nl

Dear Sir, Madam,

Our reference
Bird radar RFI

Appendix
Description of bird radar
system

*Please quote date, our
reference and subject when
replying.*

Introduction

The Defence Materiel Organisation (DMO) considers the purchase of six bird radar systems, to be installed on military airbases of the Royal Netherlands Air Force in the Netherlands.

The (draft) requirements and preferences which the bird radar system should meet are laid down in enclosed document.

Request for Information

The DMO wants to determine whether the (draft) requirements are realistic and 'the market' is able to deliver a bird radar system that meets at least the requirements as laid down in enclosed document. For this reason, you are invited to respond to the questions asked in enclosed document.

In case that your bird radar system cannot meet a requirement, as laid down in enclosed document, you are invited/requested to:

- Inform DMO whether you are prepared and/or capable to adapt your existing bird radar system so that the requirements will be met and, if so, when such adaptation will be realized;
- Propose (and motivate) a change of the requirement concerned.

The final date on which your response must have been received is: **February 6th, 2015**. Your response has to be sent to: bhw.heetkamp@mindef.nl

Request for Information

This is a Request for Information (RFI), no Request for Quotation. The goal of this RFI for the DMO is to determine whether the (draft) requirements are realistic. Candidates are requested, but are not obliged, to supply the DMO with the information, asked in attached document. You cannot derive any right from the information given by the DMO in or related to this RFI.

The DMO has the right, but is not obliged to:

- change the requirements and preferences as laid down in attached document;
- use the information, proposals, etc. given by the candidates as a response to this RFI in order to formulate the final programme of requirements concerning the bird radar system.

Additional information

In the event that doubts arise as to the interpretation of what has been stated in this RFI or if the candidate believes that the RFI contains inaccuracies and/or contradictions, he should submit his questions in that regard in writing as quickly as possible to the DMO in order to receive answers to the questions in a timely fashion. The DMO will ensure that all candidates receive the answers at the same time.

All questions and remarks must be sent by e-mail before January 27th, 2015 to bhw.heetkamp@mindef.nl. The DMO will respond to the questions and remarks by e-mail before February 2nd, 2015.

Language

Your response to this RFI must be submitted in English or Dutch.

Costs

Costs related to participation of this RFI will not be reimbursed by the DMO.

I am looking forward to your response.

Kind regards,

B.H.W. (Bas) Heetkamp
