#### **II.1.5 Short description of the contract or purchase(s)**

The scope of this tendering procedure is the development, testing, production and delivery of smart electricity and gas meters for the Dutch market. Tenderer should be able to deliver electricity meters and gas meters. The contracting entity aims at a lean and transparent supply chain of development, testing, production, logistics and support processes where every step of the chain adds optimal value based on excellent performance.

Furtermore the contracting entity wants a partnership, therefore part of the tendering procedure is the request for a roadmap, a plan to realise cost improvements, smart meter innovations, supply chain innovations, customers' demands and innovations in relation to a fair meter.
