1. Setting

Gasunie, the Dutch gas transport company, is preparing a tender for Ultrasonic Gas Meters. In preparation for this tender we would like to be better informed on the (possibilities of) the market for (the delivery of) these products.

If your company is in this line of business, we kindly ask you to fill in this questionnaire, if possible by July 10th. This will bring you in a position to influence the tender and thus support us in making a tender that is better fitted to the market.

Gasunie highly appreciates your contribution.

2. The market consultation

The questionnaire is one excel sheet with questions. We would ask you to fill in as much as possible; however the possibility not to answer some questions remains.

The sheet has been designed to minimize the effort needed to fill it in:

- Some fields with a drop box can be answered simply by 'yes' or 'no': 

- The text fields come in two categories/colours:

blue	Please fill in this field
purple	Only fill in where you feel the need to explain

Blue for answering the question asked; purple in case you would like to explain a previous answer/situation.

- The length of your answer is not limited to the size of the box, it can simply be extended. Given the intention of the market consultation Gasunie is not looking for extensive answers of answers that would cost you a great deal of work.
- You are kindly asked to fill in, rename and save the sheet and send it to the e-mail address mentioned below under 'Sequence'.
