I.2) MAIN ACTIVITY

- Airport-related activities

I.3) CONTRACT AWARD ON BEHALF OF OTHER CONTRACTING ENTITIES

The contracting entity is purchasing on behalf of other contracting entities: no

II: OBJECT OF THE CONTRACT

II.1) DESCRIPTION

II.1.1) Title attributed to the contract by the contracting entity

Implementation of Electronic Flight Strips and upgrade of the Tower System

II.1.2) Type of contract and location of works, place of delivery or of performance

Type: Supplies

Category: Purchase

Main place of delivery:
Schiphol

NUTS code:
NL

II.1.3) Information about a public contract, a framework agreement or a dynamic purchasing system (DPS)

- The notice involves the establishment of a framework agreement

II.1.4) Information on framework agreement

Framework agreement with a single operator

Duration of the framework agreement

Duration in years: 15 or in months: -

Estimated total value of purchases for the entire duration of the framework agreement

-

II.1.5) Short description of the contract or purchase(s)

PRJ2022 - Replacement and upgrade of the ATC-NL Tower System including Electronic Flight Strips

The purpose of this tender procedure – with reference number PRJ-2022 – is to award a single contract to a supplier or a consortium of suppliers that can provide the upgrade of the

current Tower System with Electronic Flight Strips functionality and could replace the entire current Tower System in use at Amsterdam Airport Schiphol. Furthermore, the supplier or a consortium of suppliers should be able to provide maintenance Support and implementation services during the operational and economic lifetime of the new Tower System.

The tender procedure is a restricted tender procedure. During the selection phase, ATC-NL wishes to select a maximum of 5 Candidates who have proven themselves as capable in realising similar contracts successfully. The selected Candidates will then be eligible to receive an Invitation to Tender.

The Invitation to Tender will include an award criterion based on a proof of concept held at ATC-NL premises, in which all selected Candidates are required to participate.

II.1.6) Common procurement vocabulary (CPV)

Main object:

Main vocabulary:

34962000 - Uitrusting voor luchtverkeersleiding

Supplementary vocabulary:

-

Additional object(s):

-

II.1.7) Information about Government Procurement Agreement (GPA)

The contract is covered by the Government Procurement Agreement (GPA): yes

II.1.8) Information about lots

This contract is divided into lots: no

II.1.9) Information about variants

Variants will be accepted: no

II.2) QUANTITY OR SCOPE OF THE CONTRACT

II.2.1) Total quantity or scope

The scope of the tender will be a contract to design, build, maintain and further develop the new Tower System in co-operation with ATC-NL. The contract will be in the form of a framework agreement and is referred to as the Master Agreement. The Master Agreement describes the Process in conformity with which the new Tower System will be rolled-out and maintained. The Process will describe multiple Projects. Each Project is performed under a specific Further Agreement. Each Further Agreement will add functionality to the Tower System as well as the associated Maintenance Services for that added functionality.

The first Project will be included in the tender procedure. The purpose of the first Project is to expeditiously realize the EFS System functionality at Amsterdam Airport Schiphol. This first Project requires the Contractor to provide an interface to ATC-NL's current Tower System. The anticipated duration of the Master Agreement is 15 years. The Master Agreement will probably enter into force in December 2016 and will therefore end in December 2031.

After the initial period of 15 years, ATC-NL has the unilateral right to extend the Master Agreement 2 times with another 5 years.

Initially the scope of supply extends to the Amsterdam Airport Schiphol location. Although at the moment of this tender procedure the upgrade of the other ATC-NL control towers is not foreseen, ATC-NL wants the option during the term of the Master Agreement to upgrade these towers.

ATC-NL is aware that future requirements, such as PCP requirements will be implemented internationally in the coming years. The Master Agreement will extend to such future developments.

Each of the Projects under the Master Agreement includes deliveries and services that are listed here below. Please note that information containing further details of the deliveries and services will be further detailed in the Invitation to Tender including the Master Agreement.

Projects under the Master Agreement include:

1. expeditiously implement the EFS System functionality to the current Tower System;
2. implement other changes to the new Tower System which are solutions with regard to several current operational constraints;
3. implement large changes to the (new) Tower System that are required in the near future.

For example, the following conceivable functions/changes are foreseen:

- a. Improved safety nets and attention triggers;
- b. iCAS interface to the (new) Tower System;
- c. PCP requirements to the (new) Tower System;
4. improve system support through co-operation with the supplier and cooperation with other customers of the supplier (e.g. through user groups).

Deliveries for a Project:

- Software and perpetual (user) licenses to ATC-NL;
- Hardware for the new Tower System for the Development, Test, Education (training) and Production (operational) Environments for Amsterdam Airport Schiphol;
- Documentation;

Services for a Project:

- Establishing during workshops the requirements in cooperation with LVNL, where LVNL is responsible for the System Requirements Document (SRD) and the Contractor for a Gap analysis;
- Translating the system requirements to a system design;
- Acceptance Tests (including at least Factory Acceptance Test and Site Acceptance Test);
- On-site activities;
- On-site support during the transition from the current operationally in use Tower System to the new Tower System;
- Training;
- Maintenance & Support;

The general purchase conditions with the title "ATC-NL General Procurement Terms and Conditions" dated 4 September 2013 shall in conjunction with the contract apply to the execution of the Contract.

II.2.2) Information about options

Options: yes

Description of these options:

- Upgrade with additional Working Positions; an Electronic Flight Strips working position within the current Tower System or a Controller Working Position within the current Tower System or the tower simulator.
- Upgrade with other towers within the Netherlands.
- Upgrade with additional environments like an Acceptance Environment or a non-Schiphol Production Environment.
- Upgrade with an emulator, emulating automatic processes of the Tower System for use within a Test Environment of another system

Provisional timetable for recourse to these options:

in months: 300 (from the award of the contract)

II.2.3) Information about renewals

This contract is subject to renewal: yes

Number of possible renewals: 2

In the case of renewable contracts, estimated time-frame for subsequent calls for competition:

in months: 60 (from the award of the contract)

II.3) DURATION OF THE CONTRACT OR TIME LIMIT FOR COMPLETION

-

III: LEGAL, ECONOMIC, FINANCIAL AND TECHNICAL INFORMATION

III.1) CONDITIONS RELATING TO THE CONTRACT

III.1.1) Deposits and guarantees required

the criteria stated in the specifications, in the invitation to tender or to negotiate or in the descriptive document

III.1.2) Main financing conditions and payment arrangements and/or reference to the relevant provisions governing them

the criteria stated in the specifications, in the invitation to tender or to negotiate or in the descriptive document

III.1.3) Legal form to be taken by the group of economic operators to whom the contract is to be awarded

the criteria stated in the specifications, in the invitation to tender or to negotiate or in the descriptive document

III.1.4) Other particular conditions

The performance of the contract is subject to particular conditions: no

III.2) CONDITIONS FOR PARTICIPATION

III.2.1) Personal situation of economic operators, including requirements relating to enrolment on professional or trade registers

Information and formalities necessary for evaluating if the requirements are met:
the criteria stated in the specifications, in the invitation to tender or to negotiate or in the descriptive document

III.2.2) Economic and financial ability

Information and formalities necessary for evaluating if the requirements are met:
the criteria stated in the specifications, in the invitation to tender or to negotiate or in the descriptive document

III.2.3) Technical capacity

Information and formalities necessary for evaluating if the requirements are met: the criteria stated in the specifications, in the invitation to tender or to negotiate or in the descriptive document

III.2.4) Information about reserved contracts

-

III.3) CONDITIONS SPECIFIC TO SERVICES CONTRACTS

III.3.1) Information about a particular profession

Execution of the service is reserved to a particular profession: -

III.3.2) Staff responsible for the execution of the service

Legal persons should indicate the names and professional qualifications of the staff responsible for the execution of the service: -

IV: PROCEDURE

IV.1) TYPE OF PROCEDURE

IV.1.1) Type of procedure

Restricted

Some candidates have already been selected (if appropriate under certain types of negotiated procedures): -

IV.2) AWARD CRITERIA

IV.2.1) Award criteria

The most economically advantageous tender in terms of the criteria stated in the specifications or in the invitation to tender or to negotiate

IV.2.2) Information about electronic auction

An electronic auction will be used: no

IV.3) ADMINISTRATIVE INFORMATION

IV.3.1) File reference number attributed by the contracting entity

PRJ-2022

IV.3.2) Previous publication(s) concerning the same contract

no

IV.3.3) Conditions for obtaining specifications and additional documents

Time limit for receipt of requests for documents or for accessing documents

Date: - Time: -

Payable documents: no

IV.3.4) Time limit for receipt of tenders or requests to participate

Date: 30/05/2016 Time: 13:00

IV.3.5) Language(s) in which tenders or requests to participate may be drawn up

Official EU language(s):

- EN

IV.3.6) Minimum time frame during which the tenderer must maintain the tender

-

IV.3.7) Conditions for opening tenders

-

VI: COMPLEMENTARY INFORMATION

VI.1) INFORMATION ABOUT RECURRENCE

This is a recurrent procurement: no

VI.2) INFORMATION ABOUT EUROPEAN UNION FUNDS

The contract is related to a project and/or programme financed by European Union funds: yes

Reference to project(s) and/or programme(s):

DP Implementation – call CEF 2014

VI.3) ADDITIONAL INFORMATION

[the criteria stated in the specifications, in the invitation to tender or to negotiate or in the descriptive document]

VI.4) PROCEDURES FOR APPEAL

VI.4.1) Body responsible for appeal procedures

-

Body responsible for mediation procedures

-

VI.4.2) Lodging of appeals

Precise information on deadline(s) for lodging appeals:

-

VI.4.3) Service from which information about the lodging of appeals may be obtained

-

VI.5) DATE OF DISPATCH OF THIS NOTICE

21/04/2016

B: INFORMATION ABOUT LOTS

-
