

Dear Participants,

The Dutch Department of Public Works of the Ministry of Infrastructure and the Environment (Rijkswaterstaat), the Danish Road Directorate of the Ministry of Transport and Building (Vejdirektoratet) and the Flemish Agency of Roads and Traffic of the Ministry of Transport and Public Works (Agentschap Wegen en Verkeer) would like to thank you most cordially for showing interest in the Dimmable LED Lighting Programme, and for sharing your views and insights with us, both in conversations and by completing our questionnaire. Your input in round one and/or round two of the market consultation, has been most valuable. We have analyzed it as part of our ongoing effort to define a joint procurement strategy and business case for the Dimmable LED Lighting Programme. In return we like to share our findings with you. Please find attached the *Market consultation report, Summary of results*.

The goal of the market consultation is to explore the availability of existing solutions to meet the challenge of the Dimmable LED Lighting Programme.

Currently we are preparing a joint procurement strategy and the tender procedure. Once we have decided on both plans we may indeed seek to contact you again. In due time we will communicate our approach to all the companies that showed their interest in the Dimmable LED Lighting Programme.

Kind regards,

On behalf of the Dimmable LED Lighting Programme team,

Benno Koehorst
