II.1.5) Short description of the contract or purchase(s)

“The project deals with the automatic data extraction from scanned mapping drawings for the enhancement of the cadastral map of The Netherlands.

In this market survey (RFI) we ask companies to provide us with information that might contribute to partial or complete solutions to our very specific questions. The keyword here is feasibility, which is a key indicator in our decision making process. We are providing a case of a scanned mapping drawing with a description of the challenge and a description of a possible outcome of the process. We also provide you with information about the rules that define the content of the field sketches.

Interpreting the information found on the field sketches is our primary goal for the initial step in the process.”
