Subject Announcement Industry Day M7

Industry Day Metro Equipment M7 Amsterdam

This publication considers the notification of the Industry Day on behalf of the project rolling stock M7. GVB Activa B.V. intends to launch a tender in 2017 for the purchase of a new series of rolling stock for the Amsterdam metro network: the M7 series. The M7 series will replace a part of the existing Amsterdam metro fleet. In addition, the M7 series will expand the existing metro fleet, which is necessary due to a projected growth in the number of passengers in Amsterdam.

The Industry Day Metro Equipment M7 aims to give interested parties a first impression of the procurement process (project context, scope of work, challenges, planning, boundaries and requirements) that will be carried out for the purchase of the new series metro equipment. The Industry Day is not part of the procurement process. Participation in the meeting is entirely optional.

The Industry Day will be held on Thursday November 24th in Amsterdam starting at 10 A.M. A light lunch will be served following the meeting.

The language of communication during the Industry Day will be English. The public tender is expected to be Dutch only.

Registration for the Industry Day Metro Equipment M7 is required. Please send an e-mail to m7@gvb.nl and provide the name of your organization and the number of people you expect to attend the Industry Day (up to a maximum of 3). You will receive a confirmation of the registration for the Industry Day rolling stock M7.

The consultation is solely intended for (end) suppliers of metro vehicles. GVB reserves the right whether or not to invite parties to the Industry Day.
