Selection guidelines project KSI lot 1 and lot 2

The following has been changed or amended to the selection guideline of lot 1 and lot 2 and will answer received questions.

Award criteria

The award criteria is the most economically advantageous tender. Afvalsturing Friesland NV (KSI BV as of end 2016) has started a restricted procedure. The current tender is still in the first phase during which Afvalsturing Friesland NV (KSI BV) can determine which candidates will receive an invitation to tender the second phase. Article 2.114 Aw 2012 applies to the second phase of a restricted procedure. Afvalsturing Friesland NV (KSI BV) is obliged to state the award sub criteria in the invitation to tender, not in the current selection guideline. However, Afvalsturing Friesland NV (KSI BV) has decided to at least include the following award criteria in the invitation to tender:

- Price
- Project execution (execution plan, execution monitoring plan, coordination and communication plan, planning)
- HSEQ (health, safety and environment plan, quality plan, coordination plan HSEQ)

Paragraph 4.4.1

Afvalsturing Friesland NV (KSI BV) has found that the requirements as mentioned in paragraph 4.4.1 are vague. Candidates do not know which standard they have to meet. Afvalsturing Friesland NV (KSI BV) has decided to discard the requirement as mentioned in paragraph 4.4.1. of the selection guideline lot 1 and lot 2.

Paragraph 4.4.2

Selection criteria 4.4.2 will be amended in the following way. The candidate should have sufficient financial and economic standing to be able to issue a bank guarantee equivalent to 5% of the contract price within 14 days after receipt of a written request from KSI BV. The bank guarantee should be provide by a bank or financial institution with its registered office in the EU.

Paragraph 4.4.3

In line with article 2.90, section 3, Aw 2012 the yearly turnover criterion as mentioned in paragraph 4.4.3. of the selection guideline lot 1 and lot 2 will be discarded.

Paragraph 2.2 Filing of the application

Instead of sending your application by mail or hand carry this to the offices of KSI BV, candidates are not allowed to e-mail the complete application in order to avoid any loss by e-mail protection software.

Paragraph 4.5.1 Requirements with respect to experience

Article 2.93, paragraph 1, subsection a, Aw 2012 stipulates that the maximum term for references is 5 years, a longer period is not allowed.

Paragraph 4.5.1 has been adapted to:

The candidate should have executed in the last five years (prior to filing this application) at least 1 representative similar industrial project, with respect to scope, capacity, complexity, quality etc.

The maximum value of the reference project is 60% of the estimated value of lot 1 or lot 2 (what is applicable).

In the basic design the buildings are calculated to:

Input storage: 67.5 meters x 40 meters, height 15 meters;
Machine shed: 67,5 meters x 40 meters, height 20 meters;
Output storage: 67,5 meters x 40 meters, height 15 meters.

Afvalsturing Friesland BV (KSI BV) decided to discard the following “Where appropriate, the competent authority shall submit these certificates to KSI BV direct”.

Article 4.5.2.1 Requirements with respect to organization

Applicable specialism has been defined as follows: required specialism with respect to the specified scope of work.

Article 1.2 Project phases

Receipt of requests to participate has been adapted to 14-10-2016 (11:00 am).
